Name: Alice Chen

Email: alice.chen@email.com

Phone: (555) 123-4567

Location: San Francisco, CA

Experience:

- Senior ML Engineer at TechCorp (2020-Present)

  • Built production RAG systems using LangChain and Weaviate

  • Optimized LLM inference latency by 40%

  • Led team of 5 ML engineers

- ML Engineer at DataSolutions (2018-2020)

  • Developed recommendation systems

  • Implemented automated model training pipelines

Skills:

• Python (PyTorch, TensorFlow)

• LangChain, LLM fine-tuning

• Vector Databases (FAISS, Weaviate)

• MLOps (Docker, Kubernetes)

Education:

MS in Computer Science - Stanford University (2018)

BS in Computer Engineering - UC Berkeley (2016)

Projects:

- Enterprise Chatbot System (handles 10M+ queries/month)

- Patent-pending text summarization algorithm
